Forecast for Monday 07 Nov 2022

Weather: Rather cloudy with a mainly dry start then occasional rain extending northwards during the morning. Much of the rain will be over southern half of area from Creag Meagaidh southwards with some heavier outbreaks. Staying drier and also a little brighter in the north with just a few light showers.

Chance of cloud-free hill tops above 800m: 50% best chances in north of area.

Low cloud and visibility: Becoming misty across southern half of area during the morning with patches of poor visibility and extensive clouds down about 600 to 700m. Mostly good visibility over Monadhliath mountains and northern Cairngorms with clouds higher up the hills.

Met Office Aberdeen Meteorologist's View
Continuing to feel bitterly cold over the tops. Note marked increase in wind strength after dark.

Forecast for Tuesday 08 Nov 2022
Weather: A brighter day with sunny spells but also scattered showers breaking out. The showers will be most frequent in south of area, heavy at times with small risk of thunderstorms.

Maximum wind: Strong southerly winds, average speeds of 30mph with gusts 45mph over the tops.

Chance of cloud-free hill tops above 800m: 60%, best in north of area.

Low cloud and visibility: Generally good visibility with occasional clouds about 700 to 800m. Temporary reductions to poor visibility as heavier showers pass by, bringing clouds lower down the hills, especially in south of area.

Temperature: **Glens:** Plus 5 Celsius rising to 14 Celsius.
At 800m: Plus 8 Celsius.
Freezing level: Above the summits.
